**DETAILED ACTION**

***Allowable Subject Matter***

1. The following is an examiner's statement of reasons for allowance:
2. **Claims 1-24** are allowed.

**Claim 1** is allowed because the closest art Kitazawa et al (US 2005/001096 A1) and Azenkot et al. (US 2002/0154620 A1), either singularly or in combination, fail to anticipate or render obvious an method for multiplexing of a plurality of data streams, comprising:

2 stage of multiplexing, with second stage being statistical multiplexing;  
data streams at the first stage has constant rate; and  
bandwidth of each stream at the first stage is dynamically allocated and controlled by the controller of the second stage multiplexer upon the request and data stream is encoded according to the acquired bandwidth;  
in combination with all other limitations in the claim as defined by applicant.

Kitazawa et al teaches two stage multiplexing, with first stage being statistical multiplexing instead of second stage in the application. Furthermore, it does not disclose that the bandwidth for each data stream is assigned by the controller of the second stage multiplexer.

Azenkot teaches sending bandwidth request message, but fails to teach assigning the bandwidth based on multiplexing information.

Neither Kitazawa or Azenkot teaches that the rate of each data stream is constant.

**Claims 2-12** depend from claim 1, therefore, they are allowed for the same reasons as applied to claim 1 above.

**Claim 13** is allowed because it is an apparatus claim of claim 1.

**Claims 14-24** depend from claim 13, therefore, they are allowed for the same reasons as applied to claim 7 above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
